## New DAP based high Sulphur Products

An increase in demand for sulphur in fertiliser has all manufacturers and suppliers looking around the world for suitable fertilisers for our requirements. This year there will be two new additions to what is available for our clients both from the same supplier, Wengfu who are a well respected supplier of quality fertilisers for many years. The analysis of both products is 17-17.4-00-6.5 and 16-17.4-00-8 with 0.5% zinc. We are yet to see the product ourselves but it does sound like it is a very good quality granule, although being DAP based, it does need to be managed differently as any humidity can cause handling difficulties with DAP products. For clients who do use DAP and are looking for additional sulphur or zinc in the blend, this product could be highly suitable.

## Nufarm's Top Croppers® 2016 Rewards range

## Forage Pasture Seed Available

Did you know North West Ag Swan Hill has available various forage pasture seed varieties for sowing this season.

Varieties include:

- Sowsmart Beef and Prime Lamb Blend - Suitable for irrigation and for conditioning stock, this blend with perennial rye-grasses, white and red clovers will produce the highest pasture dry matter and feed quality.
- Sowsmart Horse HR Blend - Suitable for irrigation this blend of fescue, cocksfoot, phalaris, rye-grass, sub-clovers, balansa clover and lucerne is specifically designed to provide horse pasture grazing in dryland or irrigated situations.
- Sowsmart Medic Haygraze LR Blend - A low rainfall medic pasture enabling producers to optimize hay yield and quality with outstanding winter/spring forage production for hay and grazing.
- Jivet ryegrass - A late maturing ryegrass being an excellent option in good dryland or irrigated ground where the extension of spring-summer growth is required, offering additional milking and stock carrying capacity.
- Super Sweet Sudan (SSS) Forage Sorghum - Suitable for dryland and intensive irrigation this hybrid variety produces super high quality hay and silage, is sweet and leafy and is palatable at all stages of maturity and growth.

Our Swan Hill store also has available Hygain Zero, Granny Reilly, Coolstance Copra, Prydes Oldtimer, Mitavite Breeda and Lucerne and Wheaten Chaff for the horse enthusiast.

Why not contact Stuart or Laurie on 5032 5595 to discuss your upcoming pasture and dry feed requirements.
