## MALLEE MACHINERY FIELD DAYS - SPEED

WEDNESDAY 3rd & THURSDAY 4th AUGUST

**Join us at site 190**

Call in and see us at SITE 190 to discuss all your farm requirements from Agronomy, Fertiliser, Grain Marketing to Seed, Fencing, Tanks, Grain Storage and more.....

### Our People

Staff are integral to your experience at North West Ag Services. In future issues of FarmTalk we will give you the opportunity to meet and learn a little more about the people at North West Ag.

#### **Luke Zagame**

Position: Branch Manager  
Location: Charlton

Luke has been with North West Ag since the Charlton store opened in 2010. He was born and bred in Charlton and after studying at Marcus Oldham College, Geelong, Luke worked at BCG, Boral Quarries, AWB GrainFlow and then spent 6 years with GrainCorp's Merchandise sector. He says he has a passion for the agricultural sector, both as a service provider and a producer with his involvement in his family farm.

When Luke is not at work he enjoys playing footy for the Charlton Reserves, water skiing and keeping up with his 5 sons!

Currently in the Charlton district growers are relishing the recent rainfall, after waiting 10 years for a potentially good season! Many are top dressing urea, spraying post emergence herbicides and monitoring crops for disease and insects.

## Gulf Western

Whether you are looking to clean up your farm equipment after sowing and/or spraying or maintaining your chain saw bar to keep the home fires burning, Gulf Western have the products to suit.

[SUPER BLUE TRUCK WASH](#) is a water based car / truck wash containing no caustic and is pH neutral, hence it is friendly to paint and will not dull aluminium or plastic. It is a biodegradable, quick break concentrated solution suitable for cars, trucks, boats and off road equipment.

[SUPERTAK CHAIN BAR OIL](#) is a extremely tacky, viscous chain saw/bar lubricant formulated from high quality base oils to provide superior chain and bar protection, condition seals and reduce sling off. Popular amongst logging contractors and professionals due to its strong EP performance and extra tacky formulation.

Contact your local North West Ag store for more information on these products and the complete range from Gulf Western.

## What is Tri-Solfen?

You can make a difference  
to their lives and yours  
by using Tri-Solfen.

Pain relief is a better choice

TRI-SOLFEN is a gel spray formulation containing a combination of local anaesthetics, adrenaline and an antiseptic applied as a one-off treatment to the mulesing wound.

### Why Use Tri-Solfen?

Currently mulesing remains a necessary procedure to reduce flystrike risk. However this procedure causes acute pain and stress to lambs and has attracted growing concerns regarding animal welfare. Tri-Solfen is the first product of its kind to address the legitimate animal welfare concerns being expressed regarding mulesing. Tri-Solfen delivers immediate and prolonged pain relief and reduces mulesing procedure-related impacts on lambs. This pioneering treatment is easy to use and apply, and is a low cost solution that visibly improves animal care.

For more details contact your local North West Ag store.

## Nufarm Top Croppers Program

Nufarm are pleased to announce some great changes we have made to the Top Croppers® program.

Top Croppers® points are now able to be used for three years from when they are earned – rather than expiring each year. If you want to redeem each year, you still can. However, now points can be saved for that bigger, better reward.

In addition, members provided us feedback that they would like to receive their rewards closer to the time they were ordered. Following this feedback all rewards will now be delivered to the members' nominated address. Rewards will now arrive to the members' doors within eight weeks from redemption. With redemption beginning on 19 July, all rewards will now be delivered by early spring.

With these changes, and an online store full of exciting rewards, for you, the family or the farm, there has never been a more rewarding time to be a Top Croppers® member!

For more information on the program speak to your local North West Ag store.
